ASO® Ankle Stabiliser

Stable low-profile ankle support with stabilising front lacing. The rigid nylon straps are positioned to mimic taping and prevent the foot from supinating or pronating. The straps can be adjusted depending on the nature of the injury. For added comfort, the orthosis features new reinforced CoolFlex™ padding along the inside, next to the Achilles Tendon.

Recommended Range Of Application

Acute or chronic ankle instability, and for preventive use during sports activities.

Item No.	Model	Size	Measurement	L/R	Color
281860010	ASO Ankle Stabiliser w/Stays	X-Small	25-27,5 cm	Bilateral	Black
