COMBO™

Dynamic low profile, lightweight, functional orthotic solution for the management of genu recurvatum or chronic knee instability, accompanied by foot-drop. Low profile and lightweight – a KAFO your patients will wear! Uprights easily shaped and adjusted to optimum height for patient. Modular components allow you to accommodate variances in thigh and calf circumference. Easy to don and doff. Easily removed when wearer is relaxing (watching TV, etc.).

Recommended Range Of Application

Knee instability, knee hyperextension in combination with a foot drop from stroke, post-polio, MS, etc.

Contraindications

Use of COMBO with any product other than ToeOFF® or BlueROCKER® is prohibited.

Measurements

Please ensure you provide these four key measurements before ordering

Measurement 1: M-L mid-patella
Measurement 2: Circumference 20 cm above the mid-patella
Measurement 3: M-L 20 cm above the mid-patella
Measurement 4: Height from floor to Tibia Plateau
