SoftKIT™ Short

SoftKIT™ Short is a comfortable and flexible padding system designed for the Allard AFO models ToeOFF® Short and BlueROCKER® Short. Pressure on the tibial crest can easily be relieved by positioning the neoprene pads between the orthosis and the padding, creating a pressure-free channel. Each package contains two narrow neoprene pads, one extra pad for use while the other is being laundered, and pre-cut pressure-sensitive MikroFix tabs for easy attachment to the orthosis.

Item No.	Model	Size	Color
