SELECTION® Radialis Finger Part

Supporting textile finger section to be combined with SELECTION® Wrist orthoses 35204, 35205 or 35209. Read the instructions for the main product before use. In case of radial nerve palsy (wrist drop caused by damage to the radial nerve), the finger section can be combined with the 35216 SELECTION® Radial Thumb Part to enable a functional grip while the nerve recovers.

Recommended Range Of Application

Radialis Paresis.

Measurements
